

Grilling Safely Fire Tips

In the Outdoor Kitchen

Only grill outside and keep at least 10 feet from combustible construction.

Keep a 3-foot zone around the grill to keep kids and pets safe.

Inspect the propane tank and supply line for proper connection and for any cracks or damage before use.

Keep your grill clean. Remove grease that can start a fire. Clean the grills and any trays below the grill.

Always make sure your grill lid is open prior to lighting.

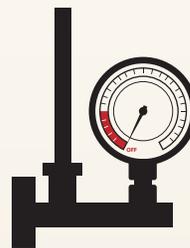

Keep a spray bottle with water nearby to deal with flare-ups.

Keep an eye on grill. Never leave unattended.

Have a fire extinguisher close by and available.

Throw cooled coals into metal trash can with lid.

Shut off propane supply line first when shutting down grill.
